PUROLITE RAISES PRICE FOR  
ION EXCHANGE, CATALYST, ADSORBENT AND SPECIALTY RESINS

*Unprecedented High Costs for Raw Materials, Transportation and Energy Drive  
Increase*

Bala Cynwyd, PA – April 17, 2008 -- Purolite, the largest privately held ion exchange, catalyst, adsorbent and specialty resin manufacturer, will increase its prices 9-12% worldwide on all products. This price increase is effective immediately, as contracts allow.

“Increases in transportation, duties, raw materials and energy continue to adversely impact our cost”, said Mr. Stefan Brodie, President and CEO. “Despite these increases, Purolite continues to provide the best value to our customers with leading technologies, quality products and unique technical support.”

Purolite Corporation was founded in 1981 and is a leading manufacturer of ion exchange, catalyst, adsorbent and specialty resins and the only company to focus exclusively on this market. Headquartered in Bala Cynwyd, PA, the company has ISO-9000:2001 certified sales offices in more than 30 countries as well as manufacturing and R&D facilities in the USA, China and Romania.

Purolite also has a dedicated central research and development facility in the United Kingdom.

PuroLite has been a member of the Water Quality Association since 1982

and manufactures more than 400 different ion-exchange-resins, catalysts and adsorbents. It produces resins for the sweetener/sugar, beverage, bottled, municipal water, ultra-pure water, petrochemical refining, mining, bio-fuel, nuclear power, pharmaceutical, metals finishing, microelectronics, food and other industries.
