To whom it may concern,

The above enzyme carriers and ready to use immobilized enzymes are manufactured by Purolite entirely from synthetic organic and inorganic chemicals.

All manufacturing and packaging equipment, raw materials and processing aids used in producing the above Purolite enzyme carriers comply with Annex IIIa of Directive 2000/13/EC, amended by Directive 2007/68/EC and are free from Transmissible Animal Spongiform Encephalopathy (TSE/BSE) or Genetically Modified Organisms(GMO) or Allergens.

Sincerely,

Gary Thundercliffe
